TÜV Rheinland Risktec CPDs

TÜV Rheinland Risktec CPDs offer a flexible learning solution for professionals in risk and safety management. Our Continuous Professional Development (CPD) courses are available to study on demand using our eLearning platform Risktec Online.

What materials are available?

You have access to slides with notes, activities and additional resources (further reading and handouts).

How are CPDs assessed?

The assessment comprises 10 multiple-choice questions and a 3 short-paragraph answers. The pass mark for each course is 50%. Successful students will receive a CPD certificate.

When can you start?

Enrolments typically take place on the 15th of each month.

What study support is available?

Each course contains a forum for questions to be answered by our technical experts.
