

This HAZOP Leader (TÜV) course is the only training for HAZOP leaders worldwide that is certified by an accredited body. The course will develop and test the delegates' knowledge, skills and behaviours for the effective leadership of process safety related HAZOP workshops.

Participants who pass the examination will receive a PersCert (TÜV) certificate.

The course covers the fundamentals of HAZOP leadership, demonstrating how to apply the theory in practical situations and using real-world examples to illustrate key points.

The training is not industry-specific, however the exercises and worked examples are based on process safety hazards associated with oil and gas, petrochemical and chemical industries.

What is a personnel certification?

Personnel certification is a certificate issued by the accredited and independent body PersCert TÜV.

PersCert TÜV meets international standard ISO 17024 when testing technical and professional skills.

Certified
Qualification
Valid for:
5 Years

www.tuv.com
ID 0000080430

Who is this for?

- Anyone with 5 years' experience of the HAZOP technique who is required to lead HAZOP studies.
- Highly experienced HAZOP leaders seeking an internationally recognised certification.

PersCert TÜV

The following requirements must be met for candidates to attain the HAZOP Leader (TÜV):

- a minimum of 5 years' experience in HAZOP (HAZOP team member, HAZOP scribe, HAZOP facilitator)
- university degree (master's or bachelor's degree in engineering or science discipline) or equivalent engineer level responsibilities with status certified by employer
- attendance on the course
- successful completion of continuous assessment
- successful completion of the examination

On meeting these requirements, candidates will be issued with a PersCert TÜV certificate from TÜV Rheinland. The certificate is valid for 5 years.

How is it delivered?

As current HAZOP leaders with extensive training experience, Risktec trainers draw upon their practical experience when delivering the training, providing examples of HAZOP leadership as applied in the real world.

The course can be delivered face-to-face in a classroom or via live virtual sessions using MS Teams, Skype for Business or Zoom, and the course may be delivered as a public scheduled course or as a closed course for a specific organisation.

The course materials comprise many activities designed to enhance the knowledge and practical skills of participants and provide a hands-on learning experience, some of which will contribute to the continuous assessment. The slides provide useful reference material.

The course is delivered over four days, including assessment.

How is it assessed?

Candidates must have successfully demonstrated their leadership skills during the course's activity-based continuous assessment to be eligible for the written examination, which takes place at the end of the course.

The examination has a duration of 4 hours and comprises two parts; part one is a written assessment (2 hours 30 minutes), part two is a combination of multiple-choice, multiple response and short answer questions (90 minutes).
